To: Parents and Swimmers;

April 13, 2009

Pukalani 50m Pool has re-opened April 13, 2009 after 6 weeks from March 2 for the filter refurbishment. The heater isn't working yet ... problems occurred and the maintenance contract people for the heaters are at the pool today (Monday) and will hopefully be working by this afternoon. Thanks to everyone who could swim with us through March & early April downtime.

We're back to our usual schedule. And I'm looking to expand later this month with an additional earlier "Flipper-level" 1-hour daily swimming class.
